ABOUT ME

Full-Stack Developer with hands-on experience in Laravel, Tailwind CSS, JavaScript, and MySQL. Currently pursuing 12th grade education and a professional diploma at Aptech. Experienced in developing scalable web applications, including a multi-panel healthcare management system and a custom e-commerce website. Strong focus on clean code, performance, and precision. Seeking a full-time full-stack developer role.

PROJECTS

Healthcare Management System (Laravel, MySQL, Tailwind)

- Developed a scalable clinic management web application with Doctor, Admin, and Patient panels.
- Implemented role-based authentication, appointment management, and secure data handling.
- Designed the system with scalability in mind for future commercial deployment.

Maru Dryfruit (HTML, CSS, JavaScript)

- Developed a responsive e-commerce website for fruit sales.
- Integrated EmailJS on forms to receive customer orders via email.
- Focused on clean UI and smooth user experience.

Shahee Clothing Brand (HTML, CSS, JavaScript)

- Built a responsive clothing brand website with order collection via EmailJS.
- Designed intuitive product pages and optimized site navigation.
- Handled frontend development independently; no admin panel required.

Shopify Dropshipping Store

- Created a personal dropshipping store as a hobby.
- Managed all aspects of setup including digital marketing, product listing, and store management.
- Learned end-to-end e-commerce operations and customer engagement strategies.

EDUCATION

Cant Public School & Collage (CPS&C)	2022 - 2024
Army Public School (APS)	2024 - 2026(present)
